

Week of October 7-11

A Note from the Teacher

Hello parents/guardians!

This past week was wonderful as we finally wrapped up our Case 21 testing and took our field trip to Washington D.C.

This week we'll begin learning about the multiplication of fractions and whole numbers. We'll use methods such as the area and length models. The students will begin learning about text structures before beginning the second EL module on Biodiversity in the Rainforest.

Please do not forget to promote GOAL talk each night to assure that your student is working towards his/her GOAL each day. If students are still unsure of the work they will be doing towards their GOAL; they will meet with me in small-group Monday/Tuesday to briefly discuss each step towards his/her GOAL.

This week your student will bring home his/her report card. An email will be sent

out shortly scheduling fall conferences. Please be sure to sign-up for a time slot.

The students will have **STEM** on Monday. Please remind your student to go straight there.

Don't forget tomorrow, Monday (10/7), is **National Stomp Out Bullying Day**, so please encourage your student to wear any color of blue! As always, if you have any questions or concerns email me/Remind message me and let me know! Have a happy Sunday!

Sincerely,
Miss Parker

A Glance at the Week

Math

Multiplying whole numbers by fractions;
Math GOAL work

ELA

Text Structures; ELA GOAL work

Social Studies

U.S. Regions; Early Pioneers

Science

Inherited Traits
