

Week of July 7/22-7/26

A Note from the Teacher

Hello parents/guardians!

We've had a wonderful first FULL week of fifth-grade! However, we have had a bit of an issue with homework. The students should be writing down their homework in their agendas throughout the day and getting it signed by a parent/guardian each night. Please be sure your student has completed the assignments written in their agendas. Every student has an agenda, so it should be written out explicitly each day.

Going home in Friday folders are the D.C. chaperone *INTEREST* forms and D.C. field trip information. Please read the information in the packet carefully and send it back to school. Any D.C./fifth-grade t-shirt money that was sent home last Friday will be due this upcoming Friday (7/26) as well as the first D.C. field trip payment. The students will wear both shirts on the D.C. field trip.

On Monday, the students will always report directly to specials in the morning - please remind your student we will have **SCIENCE Monday** and to go straight there.

Thank you to everyone who sent in playground equipment/balls! We are still in

need of paper towels and individually wrapped snacks. Please keep sending the refillable water bottles with your students for these hot summer days!

Open House is this upcoming Monday! We will be going over information that will allow you to better understand our fifth-grade day-to-day schedule.

So far, our friends are getting adjusted to fifth-grade well! As always, if you have any questions or concerns email me/Remind message me and let me know! Have a great weekend!

Sincerely,
Miss Parker

A Glance at the Week
